

**E SHREEPRANAV VARMA**

All India Rank 15
in JEE (Advanced) - 2019

Student of
PINNACLE-TWO YEAR INTEGRATED
SCHOOL PROGRAM+TWO YEAR
CLASSROOM PROGRAM
at FIITJEE Hyderabad Centre

**Besides this, below are
the achievements in
various competitive exams:**

- ✓ Cleared KVPY both stages
- ✓ Cleared NSEP
- ✓ Cleared NSEC
- ✓ Cleared NSEA
- ✓ Cleared RMO/GMO/KVS
- ✓ Cleared INMO

I am E. Shreepranav Varma. I joined FIITJEE in 9th grade under the 4 Year Classroom Programme, 2015-2019. FIITJEE has provided me with great aid to improve both my conceptual knowledge and my problem solving ability.

Unlike other institutions, FIITJEE places heavy focus on training the students' way of thinking and approach towards the problems rather than the quantity of problems solved. This, coupled with FIITJEE's highly trained and experienced faculty gives students a fresh perspective on the subjects. This concept oriented way of thinking encourages students to try out new ways of tackling the same problem and explore the ideas in order to gain in depth skills in each and every topic covered.

Along with this, FIITJEE also offers enough examination experience with weekly tests in both JEE Main and JEE Advanced patterns. FIITJEE also conducts mock NTSE, mock KVPY and mock Olympiad exams. FIITJEE is also one of the only institutions which conducts formal KVPY mock interviews as well. The AITS and AITS exams conducted provide invaluable Computer Based Test (CBT) experience to the students. After every exam, both internal and external, an in depth discussion of the paper and analysis of errors is done to ensure students learn from their mistakes.

FIITJEE's course is designed in such a way that students are prepared for other exams too — not just the JEE. I was able to crack the KVPY exam conducted by IISc as well as the Olympiads — NSEP, NSEC, NSEB, NSEA and RMO without any extra preparation.

But most importantly, FIITJEE's methods help the students grow in a stress free environment. I am grateful to FIITJEE for enabling me to understand my true potential while still furthering my love for learning.
